

Ask Your Healthcare Professional About  
These Products for Nutritional Support

**ADHS®** is an adaptogenic adrenal formulation designed to support normal cortisol levels. ADHS® contains no glandular material and is appropriate for vegetarians.

**Bio-DK Caps™/Mulsion™** delivers an impressive 5000 IU of vitamin D3, with vitamins K1 and K2 in a micro-emulsified formula.

**Bio-Glycozyme Forte™** is a broad-spectrum product designed to support normal, healthy glycemic function. It provides vitamins, minerals and organ/glandular support to specifically target glycemic health.

**Biomega-1000™** provides a potent dose of omega-3 essential fatty acids (EFAs), sourced from a strategically-placed facility in the far South Pacific Ocean off the coast of Chile, guaranteeing the freshest raw material available, full traceability of the product and unparalleled purity.

**Cytozyme-PT/HPT™** supplies glandular specific support as Lamb Pituitary/Hypothalamus Complex Concentrate, combined with SOD and catalase, important antioxidant enzymes.

**Optimal EFAs®** provide a complete, healthy balance of essential fatty acids (EFAs), which are important to good health. Fatty acid imbalances are common, and essential fatty acid deficits generally occur in combination. Therefore, supplementation with the balanced combination of EFAs supplied by **Optimal EFAs®** is prudent for optimal health.

# GlucoBalance®

*Support for Healthy  
Blood Sugar Levels*

# Why GlucoBalance®?

## For Individuals with Blood Sugar Abnormalities Who Require Nutritional Supplementation Due to an Insufficient Diet

The human body possesses a complex set of checks and balances to maintain blood glucose concentrations within a narrow range. Even mild disruptions of glucose homeostasis can have adverse consequences. For example, chronic diabetes may result in cardiovascular disease or renal failure. On the other hand, low blood sugar, or dysinsulinism, can be responsible for a number of troublesome physical and psychological symptoms.

Blood sugar control is influenced by the pituitary, thyroid, and adrenal glands, as well as by the pancreas, liver, kidney, and even skeletal muscle. Maintaining healthy blood sugar levels also depends on the presence of a wide range of micronutrients often lacking in the typical American diet, which is generally high in refined carbohydrates and poor-quality fats. Therefore, individuals with undesirable blood sugar levels may have special dietary needs for higher amounts of important micronutrients.

With this in mind, renowned doctors Jonathan Wright, M.D. and Alan Gaby, M.D. formulated **GlucoBalance®** for Biotics Research Corporation. **GlucoBalance®** has years of widespread clinical use in the United States and Europe. In fact, **GlucoBalance®** has been studied, and its clinical effectiveness documented. The success

of **GlucoBalance®** results from its unique composition of key micronutrients, which provide documented benefits in supporting healthy blood sugar levels.

For example, **GlucoBalance®** supplies both niacin and niacinamide. Niacin, a low-molecular-weight compound, is a vital component of glucose tolerance factor shown to potentiate the action of insulin at the cellular level. Niacinamide is used in the production of Nicotinamide Adenine Dinucleotide (NAD) in insulin-secreting pancreatic B cells. Additionally, a uniquely high amount (3,000 mcg) of biotin, essential for glucose phosphorylation by hepatic glucokinase (the first step in glucose utilization) is provided as a synergist.

Frequently, based on their evaluations, healthcare professionals will recommend adjunctive support to be taken with **GlucoBalance®**, such as essential fatty acids (**Optimal EFAs®**, **Biomega-1000™**, etc.), **Cytozyme PT/HPT™** (special glandular support for the pituitary and hypothalamus) or **ADHS®** (support for adrenal function). When combined with lifestyle modification (dietary changes and exercise), significant beneficial results may be noted in as little as a few weeks.

**GlucoBalance®** is available in 180-count bottles (#1851).

# Supplement Facts

Serving Size: 6 Capsules

Servings Per Container: 30

	Amount Per Serving	% Daily Value		Amount Per Serving	% Daily Value
Vitamin A (as retinyl acetate)	1,500 mcg RAE	167%	Zinc (as zinc picolinate and zinc citrate)	30 mg	273%
Vitamin C (as calcium ascorbate and ascorbic acid)	500 mg	556%	Selenium (as selenomethionine)	150 mcg	273%
Vitamin D (as cholecalciferol)	20 mcg	100%	Copper (as copper gluconate)	2 mg	222%
Vitamin E (as d-alpha tocopheryl acetate)	270 mg	1,800%	Manganese (as manganese citrate)	10 mg	435%
Thiamin (B1) (as thiamin mononitrate)	50 mg	4,167%	Chromium (as chromium aspartate)	1,000 mcg	2,857%
Riboflavin (B2)	25 mg	1,923%	Potassium (as potassium aspartate)	99 mg	2%
Niacin (as niacinamide and niacin)	150 mg	938%	Vanadium (as vanadium aspartate)	20 mcg	*
Vitamin B6 (as pyridoxine hydrochloride)	30 mg	1,765%	L-Carnitine fumarate	30 mg	*
Folate (as calcium folinate)	800 mcg DFE	200%	* Daily Value not established		
Vitamin B12 (as methylcobalamin)	50 mcg	2,083%	Other ingredients: Capsule shell (gelatin and water), steric acid and magnesium stearate (vegetable source).		
Biotin	3,000 mcg	10,000%	This product is gluten, dairy and GMO free.		
Pantothenic Acid (as calcium pantothenate)	100 mg	2,000%	RECOMMENDATION: Six (6) capsules each day, with meal, as a dietary supplement or as otherwise directed by a healthcare professional.		
Calcium (as ascorbate, citrate and carbonate)	200 mg	15%	WARNING: If you are taking Diabetes medications, do not use this product without medical supervision.		
Magnesium (as aspartate, citrate and oxide)	400 mg	95%
