

Pleo Muc Eye Drops

Homeopathic Ophthalmic Demulcent Medicine

Optimal
eye health
for acute
and chronic
conditions

Pleo Muc Eye Drops: Europe's Natural Choice for Eye Health

Enhance eye health and relieve dry irritated eyes.

Tear production is essential for healthy eyes. If tear film cannot be cleared from the eye (ocular) surface, it leads to irritation, inflammation, and dry eye disease.^{1,2}

Experience healthy eyes with this fast acting preservative-free ophthalmic formula.

Unique Ingredients:

Mucor racemosus Fresen (isopathic)^{5,6,7}

- ▶ regulate the metabolism of the eye
- ▶ enhance nutrition to the eyeball
- ▶ improve blood flow (vascularisation)
- ▶ reduce congestion (can lead to glaucoma)
- ▶ reduce oxidation (cataract formation)

Saline (sodium chloride 0.9%)^{3,4}

- ▶ cleanse and moisturize the eyes
- ▶ flush out foreign particles
- ▶ relieve irritation due to:
 - pollen
 - air pollutants (smog)
 - chlorine from chlorinated water

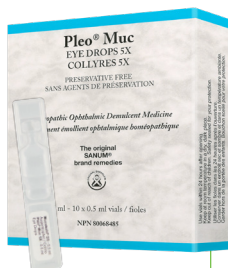

Practitioners Use Pleo Muc Eye Drops for:^{5,6,7}

- ▶ Tired strained eyes
- ▶ Dry and irritated eyes
- ▶ Eye Allergy symptoms (burning, stinging, itching, discomfort)
- ▶ Dry eye syndrome
- ▶ Visual acuity and peripheral vision
- ▶ Acute and chronic eye conditions (conjunctivitis, cataracts)
- ▶ Reduce irritation from contact lenses

Pleo Muc Eye Drops Application:

- ✓ Topical (eye) application: 1-2 drops in each eye, once to twice daily.
- ✓ Apply eye drops to the outer palpebral tissue (outer corner) of the eye, as this allows the drops to move from the outer corner to inner corner, passing over the whole eye for optimal effect.
- ✓ Avoid applying eye drops to the inner corner of the eye, as it contains the tear ducts where the drops will drain away without enough time to take effect.
- ✓ To avoid contamination, do not touch tip of container to the eye or any other surface. Replace cover after use.
- ✓ Preservative free, can safely be used with contact lenses.

Medicinal Ingredients: Mucor racemosus e volumine cellulae (lyophile., sterile) 5x, Sodium chloride 0.9% (saline)

Non-medicinal ingredients: Purified water (sterile)

Recommended dosage (adult): 1-2 drops twice daily into the affected eye(s). Apply drop to the outer corner of the eye, allowing it to wash over the whole eye surface.

Caution/Warnings: Consult a healthcare practitioner if symptoms persist or worsen. As a precaution, this preparation should not be administered with known cases of hypersensitivity to Mucor racemosus. If you experience eye pain, changes in vision, continued redness or irritation of the eye, consult a healthcare practitioner. Do not use if solution changes occur or becomes cloudy. To avoid contamination, do not touch tip of the container to any surface.
